Dear Steve,

I have been struggling to come up with a word that would correctly encompass the impact that you made at our Company Christmas Party. WOW just doesn't even do it justice!

Our employees and their families were entertained, engaged and touched in their hearts and minds during the event. You moved each member of the audience, with your humorous tales that included life lessons and heartfelt messages. You made everyone feel as if you were talking to them personally and provided an impact that has been lasting.

Your ability to reach an audience truly is amazing! I cannot count the number of employees who came to me with praise and excitement with comments, like "Wonderful", "The *best* ever", "This is what a company event should be", "How inspirational" and "Book the Speakerman again"! Please accept my appreciation for your presentation and for leaving a positive impact on our employees!!

You and your Enjoy the Ride presentation have set the benchmark for entertainment for our company events and I will be challenged to meet the expectations of our employees now. I have confidence that I will be working with you again and hope when you return to Broken Bow you plan your stay for longer!

Sincerely,

Stephanie Miller
HR/Insurance Manager
